SUMMARY

Third-year B.E. Computer Science student building AI-powered solutions with Machine Learning and Generative AI to tackle real-world problems. 1st prize winner at a national-level hackathon and author of an IEEE paper accepted at ICCE 2026. Seeking an internship to build and ship real products.

PROJECTS

CryptoSentry AI – Crypto Scam Verification & Risk Assessment Platform

- Developed an AI-powered platform that verifies cryptocurrency investment claims by analyzing market data, smart contract details and security indicators.
- Generates evidence-based risk assessments and visual reports so users can spot potential crypto scams before investing.

WelfareIntel – AI-Powered Welfare Recommendation Platform

- Designed an AI-based platform concept that helps users discover relevant Tamil Nadu welfare schemes and scholarships through personalized recommendations and simplified access to information.

RESEARCH

Hybrid Feature Selection for URL Vulnerability Detection Using Random Forest and XGBoost

- Achieved **88.48% accuracy** with a hybrid Random Forest + XGBoost model for detecting vulnerable URLs.
- Paper accepted at **ICCE 2026** (conference on 19–21 November 2026).

TECHNICAL SKILLS

Programming	Java, Python
Data Science	NumPy, Pandas
AI / ML	Machine Learning, Deep Learning
Generative AI	LLM fundamentals, Generative AI
Web Fundamentals	HTML, CSS, JavaScript
AI Dev Tools	Anti Gravity, Lovable, Google AI Studio, ChatGPT, Claude

EDUCATION

Nandha Engineering College – B.E. Computer Science and Engineering (2024–2028)
CGPA: 8.8/10 (up to Semester IV)

ACHIEVEMENTS

- **1st Prize – National-Level Hackathon**, KPR Institute of Engineering and Technology. Problem statement: Field Health Intelligence and Triage (FHIT), an intelligent healthcare solution that assesses patient health conditions, identifies potential risks and prioritizes cases by urgency to support faster medical decisions.
- **3rd Prize – Technical Quiz**, Nandha Engineering College.
- Solved **297** problems on LeetCode.
- Completed Government Typewriting Exams in English and Tamil with **Distinction**.

CERTIFICATIONS

- NPTEL – Data Analytics with Python (79%)
- NPTEL – English Language for Competitive Exams (75%)
- NPTEL – Cloud Computing (61%)

LANGUAGES

English – Professional | Tamil – Native
